SUBSTANCE OF THE INTERVIEW

Sir:

In the matter of the above entitled application for United States Letters Patent and in response to the Interview Summary dated May 23, 2007, Applicant submits the following Substance of the Interview.

On May 15, 2007, Applicant's representative conducted a telephonic interview with the Examiner Elly Gerald Stoica and his supervisor. Applicant had faxed proposed amendments to the Examiner. The proposed amendments incorporated allowed material from Application Serial No. 10/607,691. The Supervisor indicated that inclusion of the allowed apparatus would remove section 103 rejection of the claim but the proposed amendment was not sufficient. The Supervisor suggested that Applicant claim all apparatus elements and limitations in a unified manner. The Supervisor further warned that claiming the product would not result in allowance of the claim. No agreement was reached as to the allowability of any claims.

Respectfully submitted,

By:
